Role and Recent Activities of the Federal Provincial and Territorial Radiation Protection Committee (FPTRPC)

Alan Du Sautoy
Canadian Nuclear Safety Commission
Co-chair, FPTRPC

Canadian Radiation Protection Association Conference
Saskatoon, SK
June 5, 2017
The Federal Provincial Territorial Radiation Protection Committee (FPTRPC) was created to advance the development and harmonization of practices and standards for radiation protection within federal, provincial and territorial jurisdictions, and to communicate these to Canadians.
Membership

- **Alberta**
  - Member: Gary Hughes
  - Alternate: Derek Martinig

- **British Columbia**
  - Member: Colin Murray
  - Alternate: Ingvar Fife

- **Manitoba**
  - Member: Brent Preston
  - Alternate: Dave Niven

- **Saskatchewan**
  - Member: Madelaine Fedorowich

- **Ontario**
  - Member: Leo Tse
  - Alternate: Phys., Ing.

- **Quebec**
  - Member: Ir Martin Benoît Gagnon
  - Alternate: Michelle Cottreau

- **Yukon**
  - Member: Robert Rees

- **Northwest Territories and Nunavut**
  - Member: Monika Kumala

- **Newfoundland & Labrador**
  - Member: Nancy Hounsell

- **Prince Edward Island**
  - Member: Ryan Neale

- **New Brunswick**
  - Member: Eshwar Kumar

**Province**

- **Member’s name**
- **Alternate’s name**
2016 FPTRPC Meetings

October 18 to 21, 2016 in Ottawa
Challenges and Opportunities

- Many new members
- Working groups
- Website
- New applications
• Business Plan and Communications Working Group
• Canadian Naturally Occurring Radioactivity Material Working Group
• Electromagnetic Fields Working Group
• Radiation Dosimetry Working Group
• Radiation Protection in Healthcare Working Group
Current Priorities

• Naturally Occurring Radioactive Material (NORM) (5)
• X-ray equipment (4)
• Handheld x-ray equipment (4)
• Lasers (4)
• Regulatory framework (3)
• Knowledge gaps (3)
• Applications for landfill permits
• Long-term implications of NORM disposal
• Need for guidance
• Radon is always a concern for non-uranium mining and exploration activities
X-Ray Equipment

- Supplier and ownership control
- Unregistered use of equipment by chiropractors
- Patients want to know their doses
- Fluoroscopy in operating rooms and emergency rooms without radiation safety training
- Use in law enforcement
- Regular doses over 5 mSv has been observed in veterinary hospitals
• Some jurisdictions are getting weekly calls requesting to use handheld equipment
• Circumstances may warrant handheld equipment
  – dental surgeons working in hospitals
  – remote areas
  – confined areas
• Radiation Emitting Devices Regulations to allow handheld equipment
  – Safety Code (SC) 30 to be revised
  – Need for guidance before SC 30 is updated
Laser

- Unregulated use of high powered lasers
Regulatory Framework

- Regulations have been repealed or dated in some provinces/territories
- Basic safety standards?
- CNSC’s REGDOC-2.7.1 and 2.7.2
  - Regulatory approach for radiation protection and dosimetry
Knowledge Gaps

- Training
- Succession planning

Ongoing Working Group Activities

• Canadian NORM guidelines should be re-opened with broader stakeholder consultation
• Transportation guidelines for NORM are almost complete and should be finalized
• NORM waste disposal issue needs to be addressed
• Multibadging document to be finalized
• Tanning equipment guidelines
• Updating the website
Next Meeting

- Hosted by Health Canada
- Ottawa, Ontario
- October 24-27
Thank you!
